AIT 4500 General Portable Inflatable Lighting System

For Temporary Or Emergency
Illumination Requirements

- ▶ Glare Free Light
- ▶ Easy To Transport
- ▶ Quick Deployment

The Problem

During highway accidents, children fallen in borewell, building collapse, train accidents, police is the first responder to reach the site but our helpless and waiting for rescue team to arrive or they use conventional method of illumination such as gensets, loose wires, flood lights which are not readily available. Assembling of this is time consuming and this traditional concept is not movable.

The Solution

Police being first responder can use this light tower which consist of an inbuilt genset, blowers, lamp. The user has to switch on the generator first, then blower which inflates the cloth to a height of 4.5 meters from ground level. Further the user switches on the 400 W MH lamp which provides 360° glare free illumination up to 10,000 sq. meters within 3 minutes.

Further bomb disposal squads, training camps in jungles, reserve battlions and special squads use this light tower as per the requirement.

Gujarat, Odhisha, Karnataka State Police have already started placing this light tower in rural and urban police stations

TECHNICAL SPECIFICATIONS

Closed System LxBxH	585x450x520mm
Tower Height & Weight	4.5 mts & 45 kg
Engine	4 Stroke
Generator Model	Petrol 1200VA (rated)
Tank Capacity	8.0 litre
Light Source	400W Metal Halide
Brightness	42,000 Lumen
Time for towering extension	60 sec.
Time for closing	4 mins.
Dimension / Weight Tolerance	± 5%

APPLICATIONS

- ▶ For BOPs Squad
- ▶ For Special Squads ▶ For Rural & Urban Police Station
- ▶ For Training Centers
- ▶ For FSL Requirement ▶ For Loading & Unloading Ammunition During Dark Hours
- ▶ For Highway Patrolling
- ▶ For Reserved Battalions
- ▶ For Post Naxal Operations
- ▶ For Bomb Disposable
