HI-PRESS Water Mist & CAFS

Available in 9L & 13L

1st
Time In India
The Latest Technology
Type 4 Cylinder

**Low Weight
High
Performance**

- ▶ With carbon-fiber composite vessels
- ▶ Less than 20/24 kg when filled
- ▶ Light weight nozzle
- ▶ 14+ meter of jet range
- ▶ Constant operating pressure of 38 Bar

Applicable on all classes of fire

THE ULTRALIGHT WAY OF FIRE FIGHTING

Our new generation of extinguishers with CFRP (Carbon Fiber Reinforced Polymer) pressure vessels open up new areas of performance and possibilities. With an increased jet range of more than 14 meters, users can start fire fighting from a safe lancing distance and approach the fire accordingly

Technical Specifications

Highly compact and weight-optimized extinguisher for professional use.

Available as standing version or with backpack. Foldable handle, CFRP air cylinder with 2 liter x 300 bar, pressure reducer with safety valve and gauge.

OPTION FOR CARRYING
EXTRA AIR CYLINDER

More stability, lightness, durability and an enormous versatility; These are the main features of modern carbon fiber composite materials, in short “CFRP”.

Specifications	Hi-Press Carbon 9	Hi-Press Carbon 13
Filling Volume	9 liters	13 liters
*PESO Approved Cylinder	2L x 300 Bar Min.	2L x 300 Bar Min.
Operating Pressure	38 bar, constant	38 bar, constant
Lancing Distance	14+ mtrs	14+ mtrs
Duration	Approx. 26+ seconds	Approx. 30+ seconds
Flow Rate	Approx. 0.5L per sec.	Approx. 0.5L per sec.
Performance	A55, B233, E1000V	A73, IIB, E1000V
Range of Temp.	-25 to 60° C	-25 to 60° C
Weight (empty)	Approx. 9.5 kg	Approx. 12.5 kg
Weight (filled)	Approx. 19.8 kg	Approx. 26 kg
Height	670 mm	670 mm
Diameter of Vessel	180 mm	210 mm
Type of Vessel	CFRP	CFRP
Certification	MPA Dresden	MPA Dresden

Technical specifications or product design may change without prior notice
*PESO Approved Composite Cylinder Pet Liner Material - 20 years life
