RGES[™]

The Running Gear Entanglement System

The Running Gear Entanglement System (RGES) provides a non-lethal means for slowing/stopping a wide range of unauthorized propeller-driven vessels.

The Problem

Today we have to chase unauthorized/ suspicious boats to stop them from entering restricted areas or in open seas or deploy helicopters or we have to exercise lethal ways to stop them.

The Solution

The RGES system can be deployed by the first line of defense to delay/prevent the progress of any intruder/ unauthorized entry of personals/boats. It utilizes a light-weight portable shoulder-fired launcher to entangle propeller driven single and multi-engine configurations & OBMs.

RGES Launcher

Operational Weight (With Payload and Streamline High Pressure projectile)	8.3Kg
ALM Housing	Polycarbonate

Streamline High Pressure Projectile

Horizontal Throw Range	30 m
Service Pressure	310 bars
RGES with drogues length from a standoff distance of 20m	15 m
Drogues	Denier Cardura fabric and 3/4" flat webbing with a breaking strength of 1800kgs
Rope Diameter	12 strand hollow core construction, diameter 1/4", aramid fiber

Ultra-Light Carbon Composite Pet Liner Air Cylinder PESO Approved

Capacity	6.8L
Service Life	20 Years
Empty Weight of air cylinder without valve	3.3kg
Refilling of Streamline High Pressure Projectiles	7 times minimum

KIT Package Contents

01 - ALM launcher-black-01 No	08 - SCBA-DIN compressor adaptor -01No
02 - Streamline high pressure projectile-01 No	09 - Nozzle protector (Pack of 5)
03 - RGES (50ft/15M) with drogues in large line container qty-02 Nos	10 - O-Ring kit (10 Pack Various)-01 No
04 - Ultra Light Carbon Composite Pet Liner Air Cylinder (Type IV)-6.8 L- PESO approved-01No	11 - Corrosion block gel -01 No
05 - CO2 and Bobbins (Pack of 5)	12 - ALM operation manual-01 No
06 - Streamline filler hose- 01 No	13 - Training CD-01 No
07 - SCBA-DIN Adaptor-01 No	14 - Cardura kit carry bag black-01 No
	15 - Large storage/ transportation Case-01 No
	16 - ALM tool kit-01 No
